stated that the meeting is recorded and available to listen to.

Chief Kay stated that he has been notified that the 2012 price of NH DOT fuel will be $3.13. He stated
that in general, it is usually cheaper than on the outside, but should the local price drop lower than the
state cost, they will buy locally. Also noted - Sgt Pivirotto is recovering from a back injury and will come
back on board when able; Chief Kay will need to order some items such as patches, uniform
replacements etc.; The cruiser will have snow tires put on soon; A computer in PD appears to have
some issues, and he is unsure if it can be fix, may need to replace.

aware of as a result of attending the certification workshop which he attended on November 10. He
stated that the Transfer Station needs to have an active permit posted, the hours of operation need to be
updated, the need for an operation plan that matches the permit with regards to the types of materials
that are accepted at the Transfer Station. He stated that signage signs are needed, which can be
ordered through NH the beautiful. He will look at the website and coordinate with the office in ordering.
Says we need a roof coverage over the oil container. Other items needed: spill kit for oil (kitty litter
would be acceptable). He stated that in his down time he has been separating the batteries - the alkaline

Randy said that he believes Whitcher was doing this; that we were pumping and delivering to Whitcher. Josh stated that if they are certified to collect then that is acceptable. He also asked about oil that is there that has water in it, which makes it contaminated. Kenyon stated that he feels Pemi Baker will take it. Randy stated that he believes that Bobby has the metal which could be used to build around the oil container. Kenyon stated we should talk to Dan Woods of Pemi Baker Solid Waste. Minutes of Meeting November 29, 2011

Present: Randy Morrison, Steve Davis, Francis Muzzey, and Catherine Stover

Also Present: Kenyon Karl, Ellie Murray, Doug Muzzey, Palmer Koelb, Chief Kevin Kay, George Morrill, Larry King, Paul Smith

Randy motioned to open the meeting at 6:00 pm, seconded by Francis and approved.

Selectmen reviewed and signed the Meeting Minutes of 11/22/11 and vouchers.

Francis discussed that he had previously mentioned that the town could have delayed the transfer of funds to the Capital Reserve funds, suggesting that we could encumber the funds. However, he stated that per the RSA 35:12, December 31 is the Last day to transfer funds appropriated for capital reserve funds to trustees of trust funds.

Francis readdressed last week’s topic regarding the Evans Bridge restoration which is currently under study by Dubois & King. Francis stated that per his research, it would not be possible for the town to use the access road discussed last week as an alternative route in place of restoring the bridge. He stated that it is not a Town owned road, but rather a privately owned road and as such the owner of the road would have to bear the costs of maintenance and care. Steve stated that he believes this to be a town owned road. Selectmen also discussed with Kenyon the concerns regarding the need to have resident and emergency access during the project. Steve stated that he would like to explore the options and alternatives with residents and come to a resolution. Selectmen discussed waiting until Dubois & King have completed their Engineering Study.

Solid Waste Training. Francis stated that he and Randy Rugar will be going together. Frank Karcher’s training has been rescheduled for Dec. 15.

Selectmen signed a letter of support on behalf of North Country Council in support of their application to the US Dept of Agriculture for a Technical Assistance Grant.

The Board discussed a letter received from Bernie Waugh. Bernie stated that he would be willing to come to a meeting and discuss with the Selectmen the Statute changes and changes in laws that occurred in 2011, which will have an impact on Municipalities. The Board asked the office to see if Bernie is possibly available on Dec. 13.

Randy announced that the Holiday pot luck for our Departments is scheduled for December 13th, at 5:00-6:00 pm, followed by Selectman’s Meeting.

Paul Smith was in attendance and asked the Selectmen about obtaining a 911 number for one of his family members. The Board directed him to speak with Chief Kay. Paul also inquired about signage or his road, Ellsworth Hill. He would like a speed limit sign and a Slow Children sign. The Board directed him to check with the Road Agent, Bobby Cass and determine if these signs are already on hand and if not to let them know so they can be ordered.

Chief Kay stated that he is still looking into replacing a computer that is no longer working in the Police Department. Also, snow tires still need to be put on the cruiser.
Doug Muzzey was in attendance and asked the Selectmen what could be done about the lack of high speed internet/broadband service in the town, as many areas do not have. The Selectmen suggested he talk with Chief Kay, as they stated that Chief Kay has done quite a bit of research on the topic. Steve Davis stated that while he has written to many legislative individuals to obtain support such as Jeanie Forrester, Kelly Ayotte, and Jeanne Shaheen, the Selectmen’s hands are tied. Steve stated that he would be more than happy to support Mr. Muzzey, but at this point any efforts will have to go through the state, that the town has no power to resolve this issue on their own. Also discussed was the current Time Warner Cable contract that the town currently has with TWC. The board stated that although they had reservations when signing it, there were no other options at the time in terms of competitive companies offering cable/internet service. The Board stated that they are hoping that there will be some other options by the time the contract period is up 2019.

Francis discussed a light bulb that is out on the front porch of the Town Office building; we will need to purchase replacement bulbs.

Randy motioned to adjourn the meeting at 7:02 pm, seconded by Francis and approved.
